

BHARGAV BHAT

+91-8073897451 | Bengaluru, India | bhargavbhathosmane321@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-oriented Full Stack Developer with expertise in Java, Spring Boot, RESTful APIs, and relational database management. Experienced in designing scalable, secure web applications using React, Python, and modern software engineering practices. Passionate about Generative AI, backend development, and microservices, with a strong commitment to building reliable, high-quality software and continuously learning emerging technologies.

EDUCATION

Gopalan College of Engineering and Management , Bengaluru, India	2023 – Present
Bachelor of Engineering in <i>Information Science & Engineering</i> CGPA: 7.9	
M.E.S. Chaitanya PU College , Sirsi, Karnataka Percentage: 79%	2021 – 2023

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL
Frameworks & Technologies: Spring Boot, Spring AI, React.js, REST APIs, FastAPI, Flutter
Databases: MySQL
Developer Tools: Git, GitHub, IntelliJ IDEA, VS Code, Android Studio
Web Technologies: HTML, CSS
AI Tools: ChatGPT, Gemini, GitHub Copilot

PROJECTS

E-Commerce Web Application | *Java, Spring Boot, React.js, MySQL, Spring AI*

- Built a full-stack e-commerce platform with Java, Spring Boot, React.js, and MySQL, featuring secure authentication, RESTful APIs, and streamlined purchase workflows.
- Integrated AI-powered product recommendations and a chatbot using Spring AI with Ollama, enhancing the shopping experience with intelligent search and personalized assistance.

Theater Seat Booking System | *Java, Spring Boot, MySQL*

- Developed a real-time seat booking application with MySQL transaction management to prevent double bookings.
- Developed backend payment APIs to streamline checkout workflows and improve system responsiveness.

Spring AI Chatbot | *Spring Boot, Spring AI, LLMs, Maven*

- Developed an AI-powered chatbot using Spring Boot and Spring AI by integrating Large Language Models (LLMs) for intelligent, context-aware responses.
- Implemented modular RESTful APIs with advanced prompt orchestration and comprehensive exception handling protocols.

Vital Guard | *FastAPI, Python, Flutter, MongoDB, AI*

- Developed an AI-powered healthcare platform for patient monitoring, emergency alerts, and hospital management.
- Architected enterprise-grade RESTful APIs to facilitate real-time ambulance tracking and patient record management.

LEADERSHIP & CERTIFICATIONS

- Leadership:** Production Team Member (TEDxGCEM 2025) and Production Head (Estralis Fest 2026), coordinating technical logistics and leading cross-functional teams for large-scale events.
- Hackathons:** Participated in Smart India Hackathon 2025 and multiple national- and college-level hackathons, developing innovative software solutions in collaborative, fast-paced environments.
- Certifications:** Full-Stack Web Development Specialization (University of London), Fundamentals of Java Programming, AWS Cloud Technical Essentials, Introduction to Machine Learning on AWS, Data-Driven Websites (JSON, APIs & Templates), CSS & HTML for Web Development.
- Languages:** Kannada, English, Hindi.
- Interests:** Open-Source Development, Cricket, Music, Strategic Gaming.
